Keeping Up- - With Uplanders

IMPORTANT INCIDENTS HERE THIS WEEK INCLUDE:

Ground breaking for the new $35,000,000 Edison Co. generating plant at Etiwanda.

Observance of public schools week.

Tour to 13 local homes for inspection of yards and gardens.

Advancement of preliminary work on three major subdivisions here with at least 278 new houses to be placed on them.

Local effort to defeat the proposed plan for consolidating the local courts into an enlarged municipal court in Ontario.

Approval by the board of directors of the Upland Parent-Teacher association of the proposed increase of 40 cents in the school tax rate.

TWO LEADERS

William Mason, county supervisor from this district, who resides in Upland, and Judge Fred H. Jacobs, veteran justice of the peace, are on opposite sides in the court question. Each is very sincere and each is working for what he thinks is the best interests of the public. Mr. Mason's vote in favor of a proposed municipal court and elimination of the local courts resulted in the question being placed before the state legislature. And now Judge Jacobs is going to Sacramento to do what he can to head off the measure there.

Outcome of the court question will be watched with interest.

Incidentally, every person with definite views on the subject, should write immediately to Senator James Cunningham and Assemblyman Stanford Shaw.

LEE BLANCHARD HAPPY

Lee Blanchard was a very happy person yesterdav. He appears to be happy all the time but especially was his countenance beaming when construction on the Southern California Edison Company's gigantic generating plant was officially started. Lee is the local manager of the Edison Co. and all of his big bosses were present for the occasion.

He lives in Upland and he and his wife are real assets to the community.

DICK DERBY'S DIGGING

Richard Derby, Upland building inspector, and his staff are very busy right now—and will be for months ahead. The long-awaited subdivision project west of the prolongation of Palm avenue between Arrow highway and Eleventh street is officially under way. In a matter of hours, building permits were issued for construction with a valuation of nearly two million dollars. That's a lot of money for any city and it is quite a quantity of houses for Upland all at one time.

SCHOOL TAXES

No one likes any higher taxes but most people are aware of the need for them when it comes to providing money for education. Population increase means more teachers and that means more money. The local school tax rate cannot be more than 90 cents at present. That's a law. The only way the rate can be increased is for the public to approve of the higher rate. And that is why an election has been called for May 18. The Upland board of education would surely face a crisis if the approval for the higher rate is not given.

Boys May Sign Up on Saturday for Little League Baseball

All boys interested in playing summertime baseball and who have not as yet been assigned to some team in the Little League have until Saturday to register.

While players have been assigned to teams, additional youngsters can still get into the sport by registering at the city park Saturday.

Two Fires in Business Area Occur in Week

Two fires in the business district were extinguished without heavy loss although luck was with the property owners.

Owners of Danner's bakery are completing remodeling of the facilities and a new oven was reported cause of the fire there Monday night. Wood structures adjacent to the oven were damaged. Warren Wilkin, contractor, was called by the firemen to use his power saw to give the firemen better advantage in reaching the flames. Rex Cooper is owner of the bakery.

Officers Bill Smith and Harlan Jackson were making a normal patrol when they observed smoke coming from a garage at the rear of 244 North First avenue. The fire was extinguished with a minimum loss. Sanford Otterness is owner of the building.

Youngster Eats Medicine

Tot Survives Strychnine Pills

Although he ate an undetermined number of pills containing strychnine, Robert Bowser, 3 year old son of Mr. and Mrs. L. F. Bowser, 306 Parkside, is alive today.

His mother rushed him to the Kaiser Co. hospital after a neighbor observed two tots eating pills they found at the community incinerator.

"I first gave him some medicine to make him 'sick,' but that didn't seem to affect him, and then I took him to the hospital," explained the mother yesterday. The other boy showed no ill effects of the pills, or he had not taken any, it was explained.

Mrs. Bowser also took with her to the hospital some pills the youngsters had in their hands. Analysis there revealed the pills contained poison. The pills are taken as medicine by adults under strict doctor's orders. Some person apparently carelessly tossed out the medicine.

The youngsters took to the pills just like they were candy and an alert neighbor observed the activity. Quick action followed and Mrs. Bowser's promptness in treating her little son and in getting him to the hospital are credited with saving him. The boy's stomach was emptied at the hospital.

The pills were eaten by the youngster Monday noon and he has been a patient at the hospital since then.

Otto S. Roen, executive director of the Upland Housing authority, which supervises Parkside, said he had posted a warning to all Parkside residents to use extreme care in discarding household material.

Mr. and Mrs. Bowser have resided here five years. He is employed by the Kaiser Co.

Two Millions in Buildings Here

Upland's building permits for 1951 up until yesterday totaled $2,385,695, according to an unofficial compilation made in the office of Building Inspector Richard Derby.

As reported in The Upland News last week, most of this sum is the result of permits for 278 new houses with a valuation of $1,867,818.

Building permits during the the first three months totaled $518,137. Permits issued during April in addition to the subdivision projects are valued at $46,818.

Recent permits were issued to Ben C. Gerig for construction of a triplex at the southwest corner of Arrow highway and Euclid avenue at a cost of $17,000. Alvin Gish is the contractor. A permit for construction of a new cafe by Tom Pallett at 737 East Foothill boulevard was also issued. The new structure will replace the small cafe building now there. W. C. Cline Co. is the contractor.

Other recent permits went to the following:

Harvey Longanecker, 245 North Third avenue, garage repair; M. M. Grammer, 605 Highland court, addition to residence; Lonnie Blanton, 1290 West Eleventh street, termite repair damage; Joe L. McCarthy, 26 East Arrow highway, termite repair damage; Simon Coldera, 750 Portillo street, addition; Mary Weitzel, 1299 East Foothill boulevard, carport construction; Tillie Alvarez, 750 Olive street, addition, and Jack Knibble, 2314 East Orange, addition.

The News' Tourney

Seventh Grade Spellers Named

Deanna Tunstall, daughter of Mr. and Mrs. Earl A. Tunstall, 928 North Third street, is the best speller in the seventh grade at the Upland junor high school, and she, along with others will compete in the finals of the Upland News sponsored old-time spelling bee.

The seventh grade was the first to complete its finals and the three best spellers were selected. Besides Miss Tunstall, the others are Ruben Navarro, 809 San Ysidro drive, and Jean Camfield, daughter of Mr. and Mrs. E. R. Camfield, 404 Ninth avenue.

Eighth and ninth grades will also select their three best spellers and the nine scholarly students will compete at the meeting of the Upland Parent-Teacher association May 10. An award will be presented by The News at that time to the school champion as well as to the other winners.

Each room at the school recently selected its five best spellers and in the elimination match this week the best three persons were selected in the seventh grade.

Principal Edwin Dean is directing the activity at the school and teachers in charge of the actual spelling activity are Miss Marjorie Pleasant, Mrs. Sybil Smith and Wilson Stone.

The P-T. A. meeting will have the finals in the spelling contest as one feature of the afternoon session.

Annual spring meeting of the group four members of the California Bankers association will be held in Laguna Beach Saturday. Allan S. Barr, president of the First National bank of Upland, is first vice-president of the association. Southern California counties other than Los Angeles make up the group.

Huge Electrical Project Started

Etiwanda had the first electric light ever to shine skyward in this county.

That was more than 50 years ago.

Today Etiwanda has the beginning of a new $35,000,000 steam-electric generating station. First shovel was turned at noon yesterday on Etiwanda avenue, a short distance south of the Santa Fe right-of-way in the construction of a gigantic project by the Southern California Edison Co.

Many persons were present for the ground-breaking ceremonies and for the dinner that followed in the Etiwanda Elementary school building.

W. E. Mullendore, president of the Edison Co., welcomed San Bernardino county officials and civic leaders to the ground-breaking ceremony.

H. W. Tice, Edison vice-president, turned the first shovelful of earth to put the huge project in San Bernardino county under way.

The ceremonies were conducted in spite of the steady drizzle of rain.

May 18 Election

P-T.A. Acts To Support Higher School Tax Rate

Board of directors of the Upland Parent-Teacher association is on record today favoring approval of the increased tax rate the question to be voted upon at the May 18 balloting.

Mrs. A. B. Weisbrod, newly elected president of the group, said the board members had adopted a resolution endorsing the measure in the interests of providing adequate educational instruction for an increased population. She indicated an active campaign would be conducted to encourage support of the measure.

Need More Teachers School Head Says

The following article was prepared in the office of Harold W. Cook, district school superintendent.

Upland is not usually thought of as a community which has experienced rapid growth. Therefore, it may be surprising to some to learn that Upland School District average daily attendance for the current school year is 100 greater than the average daily attendance for the 1949-1950 school year. This represents an increase of 8.33 per cent.

If double sessions are to be avoided in the intermediate grades next school year it will be necessary to utilize the multipurpose room at the Sierra Vista School as a classroom housing fifth grade pupils. One additional teacher will be needed to teach this class.

Double Sessions Likely

Due to increasing enrollments one additional teacher must be employed at the Upland elementary school. It is quite likely that all first grade children attending the Elementary school will be on

Rotarians See Films At Meeting; Students Will "Take Over"

Motion pictures which were sent to Korea for a Christmas program for the soldiers were shown to members of the Upland Rotary club at their Wednesday luncheon meeting in the Upland Woman's club house. E. Tweed Stone was the projectionist.

Miss Sidne Moore, "Miss Chaffey" as she is called by the Rotarians, gave an interesting report of athletic activities at Chaffey.

Edwin Dean, principal of Upland junior high school, was a guest and he had with him four junior high boys who will act as officers at the club meeting next week. They are Joe Agapay, who will serve as president; Bob Allen, sergeant-at-arms; Dale Gentry, program chairman; and Louis Hoyos, fellowship chairman. The program will be presented by other students from the junior high.

President Harry Wright presided over the meeting, and Dr. Lyle W. Callow was program chairman.

Blindness May Be Crash Result

With poor vision in her right eye, Mrs. Henry B. Bush, Los Angeles, lost the sight of her left eye as the result of an automobile accident on Foothill boulevard at Euclid avenue Saturday night. She was removed to a Los Angeles hospital a few hours later. The local physician who attended her reported yesterday the vision in her right eye might improve, although she faces the prospect of total blindness as result of the local crash.

Traffic signals at this intersection are frequently blamed for crashes but the signals had no part in this case, according to Upland police.

Among others injured in crashes here during the last week was Mrs. Ida Johnson, 440 Palm avenue. She was driving a small type car which was struck by another machine at Foothill and Mountain avenue.

James Kendall, 195 East Twenty-fourth street, was involved in an accident when his car and another one crashed on Euclid at the approach to the Santa Fe right-of-way.

Garden Tour Will Appeal To Many

By MRS. ARTHUR FLUM

Interest in Saturday's garden tour, sponsored by Upland Presbyterian Women's association in cooperation with the Upland chamber of commerce beautification committee has reached a high pitch if the many questions being asked are a fair indication.

This will be an occasion when the gardens of 13 Upland and San Antonio Heights residences may be viewed by the public. The sponsoring organizations are deeply grateful to the owners of these homes for their generous cooperation in making the tour possible.

It is suggested that visitors, who may begin the tour at any garden with a donation of 50 cents, start as near 1 o'clock as possible, wear easy walking shoes and equip themselves with pencil and paper, since names of interesting plants and shrubs in many cases will be available. Each home of the tour will be easily identified at the street by attractive markers, the artistry of Mrs. Frank Palmer. Each visitor will receive a program including a map designating the location of homes in the tour. Gardens close at 6 p.m.

Swimming Pools

The homes of Mr. and Mrs. Joseph Nolan, 655 North Mountain avenue and Mr. and Mrs. F. R. Casselman, 2425 San Antonio Crescent East, each feature a beautiful swimming pool in addition to colorful and careful landscaping.

Emphasis on shade plants with fuchsias as a specialty is evident as one enters the gardens of Mr. and Mrs. Owen Atwood, 657 North Euclid avenue, and Mr. and Mrs. Joe L. McCarthy, 490 North Euclid avenue.

The peaceful old-world charm Italian ceramics and olive jars invite the visitor to forget the cares of the day in the gardens of Mr. and Mrs. George H. Whitney, 805 West Sixteenth street.

View is Feature

The magnificent panorama of the valley below is shared by the hillside homes of Mr. and Mrs. C. J. Lindesmith, 1095 West Twentyfifth street and Mr. and Mrs. P. J. Weiland, 1055 West Twenty-fifth street. Each garden provides shade and comfort of patio at the rear with fireplace and grill enhancing the out-door living area.

In spring, the breath-taking beauty of flowering peach and hedge of white bridal wreath are well known to those who traverse Euclid avenue as marking the home of Mr. and Mrs. Paul Stiker, 2009 North Euclid avenue. Stately Italian cypress border the long driveway leading to a charming secluded walled garden.

Variety of Plants

Climbing roses frame the garden where raised flower beds provide gay color contrasts at the home of Mr. and Mrs. L. W. Melburg, 1435 North Euclid avenue. The wonderful variety of plants that thrive in the yard of Mr. and Mrs. Fred R. Price, 1314 North Euclid avenue, show most exceptional results of garden interest and skillful care.

The gardens of the new homes on North First avenue exemplify the amazing accomplishments of their owners in a very short time. Of all these lovely yards, the homes of Mr. and Mrs. L. C. Gallagher, 876 North First avenue; Mr. and Mrs. H. E. Willome, 849 North First avenue, and Mr. and Mrs. S. P. Petljanski, 935 North First avenue, are included in the garden tour on Saturday.

100 New Phone Lines Are Added

Announcement that new central office automatic telephone equipment sufficient to serve an additional 100 lines is now in operation, in the local exchange will come as welcome news to 65 Upland families. These are families who have made application for telephone service but whose orders have not been filled due to equipment shortages in the central office.

Installation of these 65 services will clear up the waiting list in Upland with the exception of less than a dozen homes in recently subdivided areas where necessary outside plant facilities are to be constructed. Efforts to provide these facilities as soon as possible are being made by the Associated Telephone Company organization according to R. Sorg, local manager.

Completion of this installation brings the capacity of this office to 175 per cent of the capacity available at the beginning of 1947. Since that date more than 1,600 telephones have been added in the area served by the Upland office.

Cost of the new equipment was approximately $13,500, Sorg adds.

"A Churchman Looks at the World Crisis" will be the topic of his address. Mrs. W. F. Rugg, program chairman, has made the arrangement for Dr. Hill to be the speaker.

At the morning meeting, 10:45 o'clock, Mrs. Owen Atwood, social education and action chairman, will present three Chaffey high school students to read their essays which were printed this year in the National Prose Anthology. They are Sheryl Flum, Nina Hernandez and Inge-Maie Viik.

Judge Jacobs in Sacramento for Court Campaign

To take the campaign against local court consolidation directly to the legislators, Judge Fred H. Jacobs will be in Sacramento today.

Before leaving here he expressed the belief the proposed bill to change the courts and to establish a municipal court in Ontario would not pass.

Judge Jacobs, who is one of the leaders in the state-wide organization of Justices and Constables association, has been in close touch with Sacramento since the question has arisen. While he advocated adoption of the court consolidation measure in the November election, he said actual operation of the proposal is contrary to what had been recommended by the state's judicial council.

The bill is before the legislature because the county supervisors voted to consolidate the township boundaries and to form a municipal court in Ontario to serve the west end of the county. The legislature must pass a law creating the new enlarged court district.

Judge Jacobs is leading an intensive campaign seeking to get the legislators not to adopt the court measure. He is supported in the effort by many Uplanders who have written to Senator James Cunningham and Assemblyman Stanford Shaw. Upland city council is also on record against the measure.

If the legislators do not pass a law creating the enlarged court district, the two local courts will be consolidated as of Jan. 1, 1953 in accordance with the November ballot provisions.

Two Charged With Burglary Will Face Preliminary May 3

Charged with burglary, preliminary hearing for Albert J. Dragomir, Upland, and Logan Beckwith, Claremont, will be held May 3 in Judge Fred H. Jacobs' court. They allegedly stole 15 cases of beer and ale from Stinky's cafe at Foothill boulevard and Mountain avenue.

They were arrested by Captain Younge in cooperation with deputy sheriffs.

Plants in this large garden have been willed to Pomona college and they will be transplanted to a spot on Indian Hill, Claremont.

Questers Garden Club Gives Tree To New School

The Questers Garden club is interested in seeing that private and public gardens are improved. And so they did something about adding a tree to the grounds of the new Sierra Vista school on East Fourteenth street.

A beautiful deodar was selected as a gift to the school and in fitting ceremonies the evergreen tree was placed in a choice location just east of the multi-purpose room near the distinctive new school building.

Interested in beautifying the new grounds and realizing the school leaders want trees and shrubbery, the club took the initiative in the community-wide program of adding to the property. Present to see the tree planted were representatives of each of the classrooms at the school. The representatives then returned to their classmates and told of what they observed.

Mrs. Walter Hewitt is president of the club, which meets once a month in the interests of better gardens. Each meeting is featured by the presence of a speaker or by one of the members discussing trees, shrubbery, flowers or garden practices. In addition to Uplanders, members are in Claremont, Pomona and LaVerne.

Present for the planting of the tree in addition to some of the members were Harold W. Cook,

Huge Electrical Project Started

(Contnued From Page 1)

H. Mogle, chairman of the county board of supervisors, responded to Mr. Mullendore's words of welcome, and in turn welcomed the Edison Co. and its great undertaking to California's largest county.

J. C. Meserve, Edison Co. district manager, was master of ceremonies for the day's program. Luncheon for nearly 200 guests at the Etiwanda Grammar school followed the ground-breaking ceremonies. Etiwanda P-T.A. served the dinner and Mrs. Thomas Parker, P-T.A. president, was introduced.

The new Edison steam station at Etiwanda, to rank with the great Long Beach and Redondo Beach steam stations of the company, is scheduled for completion in Decembe' of 1952, with an initial generating capacity of 250,000 kilowatts.

Stone and Webster Engineering Corporation has the contract for the construction.

Major equipment orders running into millions of dollars have been placed by the company for the turbine generators, boilers, condensers, transformers, motors and other equipment to go into the plant.

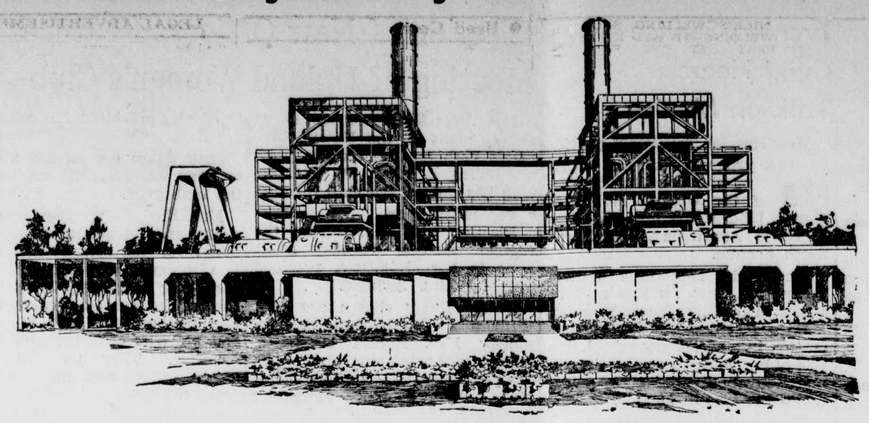

Use Colorado Water

The Etiwanda steam station will use either oil or gas for fuel, with provision made for use of pulverized coal, should coal fuel ever become necessary. Colorado river water from the Metropolitan water district pipe line will be used for steam condensing.

Strategically located with respect to electrical load centers and transmission and distribution facilities, the Etiwanda station will become another link in the far-flung system of Edison electrical generating stations — which includes thirty plants or stations, both hydroelectric and steam electric, located throughout Central and Southern California.

Mayor Eugene G. Nisbet was introduced along with mayors of other cities in the county. Others from Upland in attendance were Supervisor William Mason, City Manager Richard G. Manley, City Attorney Henry M. Busch, Councilman Vernon V. Paine, Otto S. Roen, Don Adams, Albert C. Reynolds and Lee Blanchard, the latter local manager of the Edison Co.

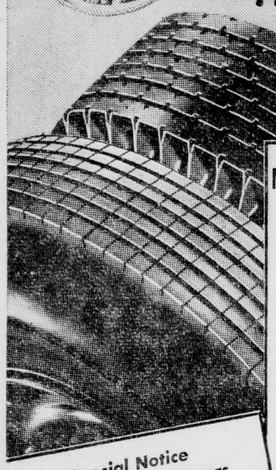

Work Started on Huge Generating Plant

Shown above is the architect's drawing of the new Southern California Edison Co. electricity generating plant. The site is 200 acres on the west side of Etiwanda avenue south of the Santa Fe right-of-way. The huge undertaking will be ready for us in 1952. Ground breaking ceremonies were held yesterday.

Inadvertently, the time for the monthly meetings of the groups of the Women's Association of the Upland Presbyterian church was announced for last Thursday, when it should have been for today, at 2 p.m.

Mrs. Owen E. Atwood, 605 North Euclid avenue, will be hostess to group one, Mrs. McClelland G. Jones, chairman. Guests are looking forward to viewing the beautiful fuchsias which are a specialty of the Atwood shade garden.

Mrs. Harry Stauffer will entertain members of group two at her home, 1090 Washington boulevard. Mrs. Marie J. Hayden is chairman.

Group three, Mrs. Merrill Moremen, chairman, will meet with Miss Lela McClelland, 1258 North Euclid avenue, Ontario.

Mrs. Malora Miller, commander, opened the meeting by leading in the pledge of allegiance, and Mrs. Flora S. Allen, chaplain, gave the opening prayer.

...create a hundred-thousand jobs!

From the loam to the loom and beyond, California cotton is big business. It takes a hundred-thousand people to grow and process California's yearly crop, so it isn't surprising that it takes a lot of money, too.

If you were to ask 100 cotton men where this money comes from, you'd hear Bank of America mentioned more often than you'd think. For in cotton—and just about anything else—Bank of America matches "know-how" with the money to make it produce.

But lending money is only part of the bank's job—deposit services are important, too. Commercial checking accounts, Tenplan checking accounts, Life-Insured Savings, Thrift Club, Christmas Club and regular savings accounts ...all serve the banking needs of Californians in more than 300 cities and towns.

Here is statewide branch banking in operation—a banking service that is possible only because of progressive policies, vast resources, and statewide branch facilities

double session or half-day session next year.

The Upland school district has both the legal and moral responsibility to provide a special class or classes for mentally retarded minors. Mentally retarded minors are defined as children of compulsory school age who because of retarded intellectual development as determined by individual and psychological examination are incapable of being educated profitably and efficiently through ordinary classroom instructions.

The Upland school district at the present time is not complying with this legal requirement found in the Education Code of the State of California Section 9802—in effect July 26, 1949. Because of lack of room and inadequate finance we have been unable to comply with the provisions of this law.

New Teacher Needed

Compliance with this provision of the education code not only means the employment of a teacher with special certification but also requires the services of a psychologist with special credential. As stated above the assignment to this special class must be predicated on individual psychological examination. This examination must be administered by a competent psychologist holding a credential for that purpose issued by the State Board of Education.

The employment of a psychologist would not only provide excellent direction and supervision for a comprehensive school district-wide testing program but would also make available guidance and counselling service for elementary school children. A trained person in this field is very much needed to deal with the large number of children with characteristics definitely indicating emotional instability. The crowded conditions in our mental hospitals and the increasing number of adults seeking help of psychiatrists is rather conclusive proof that this type of specialized service is essential.

The salaries of the four additional certificated employees mentioned in this article would be approximately $15,500 per year.

Legion Unable To Handle Fireworks

(Note: The following article was adopted by the members of Upland Post 73, The American Legion, at its last meeting, April 18, 1951, and a motion was made to place copies of the same with the local newspaper.)

Upland Post 73, The American Legion, regretfully announces that it will be unable to underwrite the Fourth of July fireworks celebration this year.

Since current funds had been previously allotted to other programs and charities, the post was dependent on its annual carnival sponsorship for the major portion of the sum mandatory in underwriting the cost of the fireworks.

However, the Upland city council did not see fit to cooperate with the veterans this year, refusing the usual waiver of the license fee which has been the policy for many years and which is the usual action taken for veterans and charitable organizations in most communities.

Without the waiver of the license fee it would be improbable, in fact impossible, for the Legion to derive from the carnival funds sufficient for the Fourth of July celebration.

The Upland Legion post has been the only organization with but few exceptions which has requested waiver of this license over the years and as a result feels the action taken by the council is discriminatory regardless of the reasons given for the sudden change in policy.

The members of the post feel that the community as a whole and more particularly its younger element are the losers in not having the fireworks display on the Fourth of July, and hope that some other organization is financially able to continue the practice.

Plan to vote May 18 on the question of permitting the school board to raise its tax rate to $1.30.

Your Letter To Sacramento Might Help Save Court Reorganization Plan

Legislators in Sacramento are going to decide what is going to happen to our local courts.

They will also set the salaries to be paid (by us) to the judges.

If you don't like the proposed consolidation of our courts, you may be able to do something about it—if you do it immediately. You can write to State Senator James Cunningham and to Assemblyman Stanford Shaw at Sacramento.

Final decision on the court reorganization is up to the legislature because the county supervisors in a 3 to 2 vote approved the measure and called upon the legislature to enact a law establishing new municipal courts and setting up municipal court districts and removing the township boundaries.

If enacted into law, our "local courts" as we have known them will pass out of existence. In their place would be one court in Ontario to serve most of the cases originating in Upland, Alta Loma, Cucamonga, western half of Etiwanda, Ontario and Chino.

The new court set up would undoubtedly place judicial decisions on a more formal basis.

If this is an improvement that is the only one. It might be possible for some economy to be realized but that is quite unlikely. If the anticipated efficiency would at the same time produce an assured savings, that would, of course, be of interest to most taxpayers.

Last November, local voters along with others in the state approved a court reorganization measure. This proposal would have consolidated the Upland justice court and the Upland city court into one court. Such a consolidation had much merit. The proposal also contained a provision whereby county supervisors "may" establish "municipal" court districts. In last week's action, the supervisors did that and thus sought to effect virtual complete consolidation of all local courts.

Consolidation of the two local courts into one court would very definitely have resulted in local savings and at the same time retained to a large degree the advantages of the smaller courts.

The issue is: Shall we have one large court to serve the west end of the county or shall we have one court in Upland and in each of the local townships?

The only recourse we have is to urge our representatives in Sacramento to defeat the proposed law that would establish the proposed municipal courts in this county. If enough people write to Sacramento it is possible our representatives there will keep the measure from being enacted.

Making Your City More Beautiful? Do Something More About It

Can you do something more about making your city more attractive?

On Saturday, Uplanders will be privileged to visit 13 local homes that have been beautified and are regarded as outstanding, due to the type of garden or beauty spot that is maintained. This event focuses attention on all yards and on the general campaign here to beautify the city.

As has been pointed out, beautifying the city is an individual responsibility. When we have a more attractive city, it will be because of individual activity.

Women's Association of the Presbyterian church is sponsoring the second annual garden tour. Mrs. Ernest Fischer and her committee are to be commended for their interest and their efforts in encouraging more attractive gardens and a more beautiful city.

Chaffey Salaries To Get Action

Salaries of Chaffey high school and college teachers will be discussed at the May 1 meeting of the Chaffey board of education. An increase of $700 a year for each teacher was recently asked and this request will be considered by the board members.

Indications are that the $700 request will not be granted, although no official report has come from the board members. Informal comments by the officials, however, indicates the salary boost may be as much as $400. Dan Milliken, Chaffey superintendent, has recommended a $300 boost. This recommendation will be considered by the group at its Tuesday meeting.

A great afternoon service will follow in the church auditorium, at 2:45 o'clock. The Rev. W. H. Burton, now pastor of the South Gate church, will bring the message.

After the class meeting and N.Y.P.S. at 6:30, the day will be climaxed with an evangelistic service at 7:30. Dr. D. Shelby Corlett, evangelist and editor, pastor at Anaheim, and a former pastor here, will preach on "Spirit Filled Christians."

You may have heard that a suit has been filed by the Antitrust Division in Washington to break up Standard of California as well as six other West Coast oil companies. "How much competition is there among major oil companies?"

Harry F. Wood, attorney of Olympia, Washington, writes: *"What type of competition does actually exist among the major oil companies? Price? Service? Research? If it's research, we should find one oil company's brand of oil, for example, gives better engine protection."* Harry F. Wood

The answer to this question is much the same for the oil industry as for most others. Competition is intense in *all* operations. In oil, operations group under four broad headings...

Competition starts with crude. Oil companies explore, bid for rights to land where oil may exist. Then they must produce at costs low enough to meet market prices.

Competition continues in refining. Again each company must make the operation pay. If products are either not good enough or too expensive, we can't keep customers.

Competition in research exists indeed. A company must keep pace or lose out. Current pace-setter is our new motor oil. With tests using atomic energy, our scientists reveal it reduces engine wear as much as one-half, compared with conventional oils.

And competition shows up clearly where our products are *sold*. This is partly competition in *service*. ("We take better care of your car.") But it's competition in *price*, too. To get and hold business, every seller has to hold his prices down to meet others.

Umpires Discuss Rules in Meeting Here Every Week

Umpires for the local baseball games meet in Upland every Monday night to study rules, to discuss the games and to better prepare themselves for the "close" decisions.

Southland Umpires association is the name of the group, which meets in the Upland city hall. Mount Heard of Pomona is president and Harold Hopkins, Pomona, is secretary-treasurer. Tom Swetonic is umpire-in-chief and he and Kenneth Smith of Upland are credited with being largely responsible for the organization and the fact that 21 men come here from many miles to get "briefed" on the rules. While they are qualified to umpire in the state, they usually serve in the Upland, Ontario, Pomona territory. They also work at various times as umpires for various kinds of sports for the high schools in the Citrus belt league.

Many of the members are from Upland and Ontario while some are from outside the local district. The personnel includes Kenneth Smith, Jess Salters, William Alexander, Harold B. Anderson, Ellis Bell, Tom Brimmer, Harry Brownson, Jerry Cain, Mount Heard, Harold Hopkins, Henry Maitral, James Monahan, F. H. Monnie, Stanley Oswalt, George Salters, Tom Swetonic, Bob Tafoya, Phil Whitaker, Hubert Weldon, Floyd Roenicke and Al Guevara.

These men will handle the games on the diamond in Memorial park as well as many games in Ontario. California league games when played at the Ontario park will also be handled by members of the local group.

Baseball Players at Church Practicing

Baseball players of the Methodist church are getting ready for play in the summertime church league and a strong nine will be fielded.

Included among the prospects are Ross Wigington, Dick Eimers, Roland Sanchez, Stanley Moore, Ryal Poppa, Lorre Sanchez, Eddie Smothers, Dean Smothers, James Kurtz, Kenneth Mueller, Marcus King, Ted Hermans and Charles McCrary.

Chaffey Wins 25th Invitational

By DON BENSON

Coach Truck Lindsey's Chaffey Tigers copped their ninth Chaffey invitational track meet Saturday, to make the 25th meet strictly a Chaffey event and certainly a Silver anniversary occasion.

While 21 southland schools fought it out, Chaffey edged them all with a total of 20½ points, followed by Monrovia with 17, Pomona 15, and South Pasadena, El Monte and San Bernardino 14.

Chaffey came through with a one-two win in the 120 yard high hurdles, with Jim Merrill and Gene DeYoung scoring in 15. flat. Merrill also led the way in the low hurdles by at least four yards, but fell while clearing the next to last hurdle, while DeYoung was never in contention after a terrible start.

Chaffey's other points came from Pete Hernandez in the 880 at 2:04, followed by DeWayne Sims; Litwiller in the pole vault at third place; Ellington in the 440, and the relay team of Phil Lee, Bob Taylor, Don Kauzlarich and Monty Shipps added points.

Records were very safe, except in the novice division, where Lin Sitton copped the 70 yard high hurdles in 9.1; and Roger Caldwell ran the 880 in 8:4:4 for a new record.

Pomona in Easy Win Over Chaffey Nine

Marty Keough of the Pomona Red Devils, although bruised quite a bit by batted and thrown balls, managed to pitch the visitors to a surprisingly easy win, 8 to 1, last Friday afternoon on the local ball orchard.

Keough, who was hit twice by pitched balls, and even conked on the noggin by one of his own infielders, shook off effects, if any, and pitched and helped hit his team to the win.

Pomona scored three runs in the first inning, another in the third and four more in the ninth, to add insult to the futile play of Yochem's Tigers.

Pat Williams, who went the distance for the Tigers, whiffed nine, and walked four.

Tickets Being Sold For Benefit Ball Game on May 25

Tickets are being sold for the benefit Little League exhibition baseball game on May 25.

This will be the first public appearance of the four teams in the youngsters' league and wide interest is being shown in the event. The Rotary team will meet the Lions and the 20-30 squad will play the Exchange.

The senior service clubs put in teams of their own in the benefit game last year but the youngsters are being given the top spot in the event this year.

Tickets are being sold by club members at 50 cents each. As a special bonus to ticket holders, various prizes will be awarded at the mid-point in the night's doubleheader.

Total of 718,000 orchard heaters is reported in the unincorporated areas of the county.

C.B.L. Track Meet Tomorrow

Coach Truck Lindsey's thinclad Chaffey Tigers are all set for their conquest of their 18th C.B.L. track title, as they ready themselves for tomorrow's titanic league meet at Redlands university.

While the Tigers are expected to receive their closest competition from Pomona and San Bernardino, they are considered more or less a cinch, unless about a dozen performers break legs or something in the preliminaries.

Chaffey's standout strength in high and low hurdles, with Gene DeYoung and Jim Merrill, plus the running of Ken Ellington in the 440, and Ted Litwiller in the pole vault, along with the sparkling Pete Hernandez and Wayne Sims in the 880 yard dash should provide enough first and seconds to lead the Tigers to another win. They will need help in lots of events for the necessary seconds and thirds, to insure the meet.

While this should be an excellent meet, very few C.B.L. records are in danger, unless Merrill and DeYoung get red-hot in the timber topping department.

Junior High Host To Webb Today

Upland junior high school Raiders are host to the Webb school baseball nine on the city's Memorial park diamond today. This will be the third game of the season for the Dayton Dickey-coached squad with five more league games scheduled.

Kenneth McCullough and Joe Bruce share the pitching chores and Albert Ramirez is behind the plate. Others in the line-up are Bob Wyperd, first; Budd Gillespie, second; Joe Agapay, third; Jim Salamoni, shortstop; Gordon Tedder, left field; Joe Adame, centerfield, and Bob O'Connor, right field.

Fremont defeated the Upland nine 12 to 0 Monday.

Following is the remainder of the Jayhi schedule:

April 26—Webb, here.

April 30—Upland at Emerson junior high, Pomona.

May 7—California Junior Republic, here.

May 10—Fremont Junior high here.

May 14—Upland at Webb school.

May 17—Emerson junior high, here.

ODDS AND ENDS:

Dick Day, Panther centerfielder, had himself quite a time last Friday against the Mt. San Antonio Mountaineers. Besides leading the way at the plate with three hits for four trips, he also saved the day with an outstanding double play, making a catch in his mid-pasture position, then firing the ball, (like Eddie Sauer), to home plate to nip a Sac runner in the ninth inning. Incidentally, the Panthers have won their last three games, for a .500 average to date. . . .

Chaffey's Norm Bowser, the Upland chucker for the Panthers, looks better with each outing. Given anything resembling support and a few hits, he is mighty hard to beat. He certainly is the most improved pitcher we know of locally . . . **Marty Keough,** Pomona's ace athlete, put the damper on the Chaffey Tigers Friday, reversing an earlier loss, as he gave up four skimpy hits for an 8 to 1 win to pace the Red Devils to their fifth C.B.L. win.

Bill Stallcup, former Chino and Panther first baseman, is now cavorting for Uncle Sam's tight-pants sailor team at San Diego. Bill says the Naval team is loaded with players, including Ed Mathews, rookie of the year in the minors last year. . . . Bill thinks that he will be stationed at San Diego for several more months, at least. . . . **Don McClure,** another Panther who is under Uncle Sam's employ, although in the Army, is home on a ten day leave. Don has been pitching quite a bit of baseball for the Army while back in Denver, now that his basketball chores are over for the season.

Stanford, once the scourge of the Coast, must feel very deflated, what with losing a dual track meet to little Occidental college last week. . . . True, Oxy has suddenly become a power in track, but it must have hurt the Old Guard, nevertheless. . . . **Although** the Pacific Coast can't beg, borrow or steal a win when it comes Rose Bowl time, it takes the S.C. Trojans to knock off a win against the Big Ten in track, whacking up the Michigan and Illinois entries but good last Saturday at L.A. in a very good meet.

The Ontario Elks, behind the splendid two-hit pitching of Howard Coats, got off to a winning start, to advance in the pre-season L.A. Invitational Softball tournament last Thursday night, shutting out the Culver City Merchants 2 to 0. Howard struck out 12 and walked none, while veteran Rex Hannah homered in the fifth inning. . . . **While Truck Lindsey's** Chaffey Tigers won the 25th Chaffey Invitational track meet for the ninth time, many people thought the class of the competing schools was not as high as in the past, for some reason. What do you think?

Those L.A. Angels continue to look pretty good, showing lots of hustle and power at the plate but being like every other team: could stand better pitching. . . . The pitching in the Coast League is about as bad as we can remember.

City Council Meeting

P.E. and Court Issues Feature City Action

Upland city councilmen are on record today requiring the Pacific Electric Railway Co. to accept a new franchise for use of the spur tracks on Euclid avenue. The councilmen are also on record opposing the proposed reorganization of the justice and city courts.

A detailed report of the Upland city council meeting held last Thursday is given here with the Pacific Electric question and the court issue the major items handled at the meeting. Mayor Eugene G. Nisbet presided.

New Franchise Ordered

When it was pointed out to the councilmen the franchise giving the Pacific Electric the right to use the Euclid avenue parkway expired some years ago, City Attorney Henry M. Busch was instructed to notify the railway officials that a new franchise would be required. The spur is used for movement of freight cars to customers south of the Santa Fe tracks.

The council also authorized Mr. Busch to continue with the council protests against the company's reported plan of using diesel engines on the local right-of-way. In former years, the company spokesmen have offered to cooperate but in a recent letter the city was advised that diesel engines would be used and contended that diesel-electric engines were in the same category as electric engines. The present franchise for the east-west railway operation is in effect for another 12 years and it specifies that only electric engines may be used. Motion on the Pacific Electric matter was sponsored by Donald Carr and Vernon V. Paine.

As to the Euclid avenue spur track, it is not the intention of the council to prohibit the company to use this line. The franchise for this service has expired, however, and the council expects to issue a new franchise. Conditions to be included in the new franchise have not been determined.

Verle C. Haynes, president of the Property Owners association, and Albert T. Shukas, 770 North Campus avenue, were present relative to the Pacific Electric matter.

Court Issue

To the proposed court reorganization as set forth by the county board of supervisors, the councilmen adopted a resolution objecting to the proposal. Copies of the resolution were mailed to Senator James Cunningham and Assemblyman Stanford C. Shaw. The supervisors were also sent a letter of protest.

Judge Fred H. Jacobs and Wiley W. Mather spoke against the reorganization plan. Supervisor William Mason was called from his home to appear before the councilmen to discuss the question.

As adopted by voters in November, the court reorganization plan would result in the local consolidation of the courts now presided over by Judge Jacobs and by Judge Mildred R. Puckett. The measure also had a "may" provision whereby the supervisors could further consolidate the courts through establishment of a municipal court. The supervisors' action of last week establishes such a court in Ontario, to serve Upland, Cucamonga, Alta Loma, western part of Etiwanda and Chino.

Various angles to the court issue were discussed and action came on a motion sponsored by Councilman Paine and E. Tweed Stone.

Subdivision Action

As the result of council action, Mr. Busch was authorized to draft an amendment to the subdivision ordinance which would require subdividers to pay the cost of paving one-half of the presently-developed streets abutting their properties. This action was taken on recommendation of Councilman Robert Thrall, chairman of the street committee.

Eleven recommendations were received in a letter from the safety council. In connection with these Councilmen Stone and Carr sponsored a motion requesting the state highway department to make a study and survey of the need of automatic traffic signals at Foothill boulevard and Campus avenue. Mr. Carr also pointed out the need for street lights on Eleventh street at Eighth, Ninth, Tenth and Eleventh avenues. These will give better illumination to the area near the city's Memorial park.

Dewey Cable questioned the legality of the city's requirement to require property owners to dedicate space for a service road along Foothill boulevard. He had reference to property on the north side of Foothill west of Central avenue.

James Dinger, 424 East Ninth street, thanked the councilmen for their recent action in establishing a two-hour parking limit on Ninth street.

Cost of pest control in the county for 1949 was $1,550,000. Cost of materials was $688,885 and the estimated cost of application is $861,107, according to the annual report of the county department of agriculture.

Colborn Electric Co.

The oldest electrical and household appliance store in the Chaffey district is the Colborn Electric Co. Colborn's is the pioneer of them all.

In the earlier years of the pioneer firm, electrical contracting was one feature of the service. Always, household appliances and electrical fixtures were available. At the outset Coborn's featured the "big names" in the electrical merchandise field. Throughout the years, Colborn's have always featured the top lines in radios, washing machines, electrical appliances . . . and now it is tops in TV.

It is important for buyers to know who has the big lines because the major distributors choose their outlets. Colborn's have been in the position also of "choosing" its lines . . . and naurally it handles only the best.
